We've lowered our prices on our Premium INVISA-FIT and given you more option choices that fit your busy lifestyle. Here's 6 good reasons to call your nearest Mid-America Hearing Center and ask about our new Premium INVISA-FIT:

1. Superior Sound Reproduction:

The new INVISA-FIT Premium also offers you superior sound quality with automatic multi-channel adaptive directional microphone to help you hear clearly in almost any setting. The open fit design allows the natural sounds around you to enter your ear while enhancing the sounds you have trouble hearing. The result is very natural sound. The automatic feed-back cancellation and sound smoothing feature reduces or eliminates whistling while giving you clear, natural sound reproduction. The multi-channels also allows the Premium INVISA-FIT to be computer programmed more precisely to your unique hearing loss.

2. **Nearly Invisible:** You're the only one who has to know you're wearing hearing aids. The Premium INVISA-FIT is ergonomically shaped to fit behind your ear with only a tiny receiver in your ear, giving you a very comfortable fit that's almost invisible!

3. **Affordable:** The Premium INVISA-FIT comes with a two year warranty and is now **only \$1,495 each!** To better serve you we also offer payment plans through CareCredit financing to those who qualify.

4. Optional Bluetooth® Technology:

The new Premium INVISA-FIT offers you an optional Bluetooth® remote for \$600 which allows you hands free operation of your (Bluetooth® compatible) cell phone or listening to TV or MP3 right through your hearing aids! This is an excellent option as more states are passing laws requiring hands free cell phone operation while driving.

5. Optional Pocket Remote Control:

The Premium INVISA-FIT also offers an optional pocket remote control for only \$300. The optional remote allows you to discreetly adjust the volume on your hearing aid from pocket or purse with just a touch of a button! This is an excellent option for meetings, church, the theater or other situations you need discrete control. The optional remote also gives you precise control for a busy lifestyle indoors and out!

6. Optional Rechargeable Batteries:

With the convenient optional rechargeable batteries and charging station for only \$210, you'll always be ready to go with fully recharged batteries. When your Premium INVISA-FIT rechargeable batteries are low, simply place your hearing aids in the handy recharging station and your batteries recharge in a few hours, just like your cell phone! This is a great option for a busy lifestyle when there's no time to stop and buy new batteries.
